TO WHOM IT MAY CONCERN,

GIANLUCA PAGLIUSO, joined during the last 3 years some of my very intensive Masterclasses, both in Berlin and in Italy. I was very impressed with his musicality, honesty and emotional involvement.

Maestro Pagliuso is an incredible musician, who believes in the message of music, and shares his incredible intensity with the orchestra and the Audience.

His Technique is clear, and the musical knowledge and understanding its texture is impressive. He was helping me as an assistant in some projects, and had personal instructions and lessons with very vast repertoire. Not only the classic -romantic German school but also works by French and Italian composers.

It is very rare to find such a talented and honest musician.

I will be very thankful for any assistance he may need, and am sure he will make a brilliant and serious career.
